

# Basement windows

When it comes to enhancing your home's curb appeal, don't overlook your Basement windows. Our custom manufactured Basement windows are designed to complement your home's other Vanguard Windows.

## Features & Benefits...

- Custom manufactured, specially designed
- ElectroFusion Welded for unbeatable performance
- Dual locking system ensures maximum security
- Fully weatherstripped to safeguard against air infiltration

# Garden windows

Vanguard Garden windows welcome additional light into your home with a view surrounded in glass. Enjoy the brilliance of the great outdoors all year around by selecting your new Garden window for your favorite spot. Whether it is the kitchen, the sunroom or over your new garden tub, a Vanguard Garden window will add a whole new point of view from inside or out.

## Features & Benefits...

- Ideal window space for growing plants and flowers, or just show casing your collectables
- Easy to reach handle with two fully operational trapezoids for worry free ventilation
- Sashes that open away from your home
- Adjustable height glass shelf is standard
- Single or double insulated seat boards are available
- Optional Corian® or Pionite® laminate seat boards are available

*One day the sky just opened up.*

Malachite

Sandstone

Glacier White

*Our Garden window, shown here in White, features operating trapezoid Casement windows that open on each end and an adjustable 3/8-inch thick glass shelf with polished edges, brackets and standards. Windows wider than 42" wide may require a center bracket for the glass shelf. This window is also shown with an optional Pionite® laminated seatboard.*

*Exterior view of our Garden window with casement sash open for ventilation.*
