*Tradition is a  
Beautiful Thing*

# Simulated Divided Lites

## *Old-Fashioned Charm and 21st Century Performance*

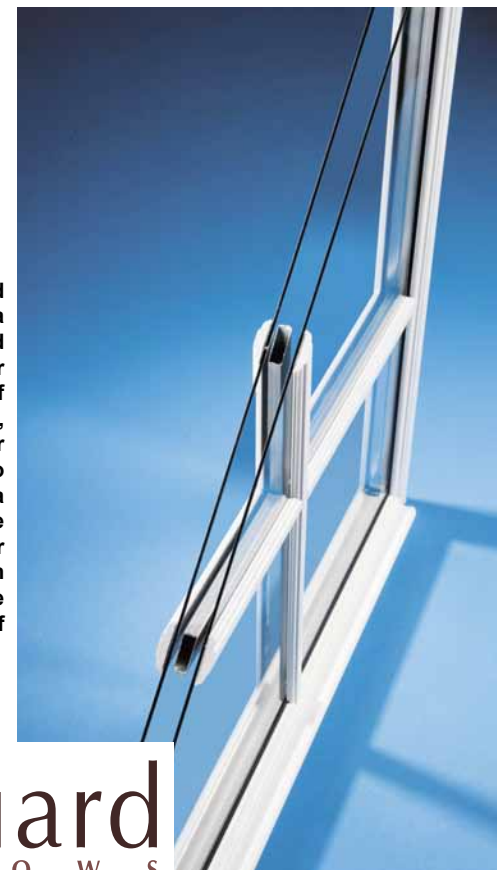

Your home has a history and traditions of its own. So why settle for windows that take away from its personality?

Instead of grids between the glass, choose Sunrise's Simulated Divided Lites to maintain your home's classic character. You can have all the advantages of premium-performing windows with thermally-efficient insulating glass, plus the timeless beauty of grids on both the interior and exterior panes of glass. The spacer bar between the glass shadows the pattern of the grid to add to the architectural authenticity.

Let your windows showcase the solid, handcrafted history of your home by recreating the classic three-dimensional look with our Simulated Divided Lites.

**Painter's White Double Hung windows featuring Simulated Divided Lites in both the top and bottom sashes.**

**Sunrise's Simulated Divided Lites feature a traditional profile grid on both the interior and exterior panes of the insulated glass, as well as a spacer between the panes to give your windows a classic design. The profile grids are color coordinated on both the inside and outside to match the color of your window or door.**
